The Heat VS. The HELP!!

by **Cedrica Mitchell and Shontice McKenzie** on February 1, 2020

A vacation spot is usually the last place you would think we would be most needed. But what people often forget about, are the people living just minutes away from the most visited place in the US. The students that are plagued by drugs, and gun violence in Liberty City, and Overtown. This community used us as much as they could, and we wish we had more time to service them. From Joy Workshops, to table events, to community canvassing, to just being parked on SOUTH BEACH, they yearned for our love, support and encouragement. We hope we gave enough to spread throughout their entire loving but separated community. The wealthy live right across, in front of, and beside the less fortunate. It's a lot of pressure when opportunities are not equal.

THIS MONTH'S
PICTURE GALLERY

PICTURE GALLERY

1-14-20~ We met the Superintendent of Dade-County Schools here at the Rotary Club in Miami Beach!

1-19-20 ~MLK Day Parade in Liberty City. Saw many students from the Joy Workshops. Told each man/woman/boy and girl that they were **KINGS** and **QUEENS**.

1-31-20~ Our first Super Bowl experience!!! It was great engaging in the festivities, but the work never stopped. Many conversations, with many beautiful people about painful things, but healing occurred.

1-24-20~Miami's Women March 2020, great camaraderie, great speakers who spoke on necessary topics for change in America.

1-1-20 ~Happy New Year! We spent the New Year in Marco Island, Florida with a very special, special friend. We love you Tiara.

1-29-20~ Overtown Community Garden Day. THIS is the FUTURE! Teaching young adults about the importance of growing and preserving our own fruits and vegetables is the key!

~Another month without a "Joy Jam", but another month full of exciting, invigorating, conscious people. People who embraced and allowed us to share information and have those tough conversations, and we all left smiling. It is an extremely painful, but revealing process and all of the smiles are an indication that it was loved and needed. We know our impact can never be measured.

Miami's "JOY SPOTLIGHT" is Awarded To:

Brittney Mejia

A true angel walking this EARTH. So effortlessly she gives herself to this universe, wanting nothing in return. She continues to shine through the toughest moments, and smiles gracefully through it all. She has taught us the real value and meaning of SISTERHOOD. Soooooo grateful and thankful for a loving, innerstanding, objective being like Brittney!
